A friend of mine who had a stroke in late June was telling me how challenging he has been, not being able to drive, much less work for the first time in over 45 years. His only family members are in North Carolina, so he had to depend on the few friends to get him to and from doctor appointments. He was debating on canceling the physical therapy appointment as he was also beginning to feel the financial strain of having four10 appointments with forty eight dollars and then having to depend on others to get him to the pharmacy as well as grocery stores. To say he was feeling down is an understatement.

El plan de reingreso de Aldine ISD, Return to Learn, abrió hasta que tuvo que ser modificado para el curso escolar virtual. Desde entonces, el distrito ha estado trabajando en el desarrollo de planes que se ajusten a las necesidades de los estudiantes y permitan que se mantenga la seguridad tanto en el aula como en la casa. El plan actual del distrito incluye tres semanas de aprendizaje virtual que se iniciarán el 17 de agosto.

El distrito es consciente de que el aprendizaje virtual es una experiencia nueva para muchos, y está trabajando en mejorar la experiencia para que se ajuste mejor a las necesidades de los estudiantes. En el primer año escolar de la TEA, el distrito ha recibido una calificación de 2.3 y el distrito para la Prevención de Enfermedades (HHS) ha renderizado una puntuación de 15 en el regreso a la escuela de los estudiantes. El distrito ha estado trabajando en mejorar la experiencia y ha recibido críticas favorables sobre las decisiones de los maestros y la flexibilidad de los estudiantes.

En las paredes de los estudiantes, con otra opción de aprendizaje virtual, se puede ver un nuevo horizonte. El distrito ha estado trabajando en mejorar la experiencia y ha recibido críticas favorables sobre las decisiones de los maestros y la flexibilidad de los estudiantes.
